FARAZ KARUKAPPADATH IQBAL

Full Stack Developer | Backend Developer
Kodungallur, Thrissur, Kerala farazkiqbal@gmail.com +919400678650 GitHub LinkedIn

SKILLS & INTERESTS

- **Languages:** Python, Java, C, C++, JavaScript
- **Working Knowledge (used in projects):** React.js, Node.js, Flask, REST APIs, TensorFlow, RAG (ChromaDB, GenAI API), Firebase, Git, GitHub
- **Soft Skills:** Teamwork, Learning agility, Analytical thinking, Communication
- **Interests:** Full stack development, AI/ML

EDUCATION

Govt. Model Engineering College — B.Tech • 8.4
Computer Science Engineering — 2026
KTU

MES Higher Secondary School — 12th • 98.1%
Computer Science — P Vemballur • 2022
State Board

Technical High School — 10th • 100%
State Board — Kodungallur • 2020

PROJECTS

FairScore
Software Developer | Python, LightGBM, Random Forest, Transformers, React.js, REST APIs

- Contributed to an AI credit scoring and credit line evaluation system designed to give fair, explainable decisions for people with limited credit history.
- Trained and compared LightGBM and Random Forest models, and added explainable AI techniques so each decision can be justified.
- Connected the models to a React.js frontend through REST APIs.

FraudGuard
Project Lead & Full Stack Developer | Python, Flask, React.js, scikit-learn, XGBoost

- Led a team of 4 to build a click-fraud detection system with a Flask REST API and a React dashboard.
- Combined Random Forest, XGBoost and a neural network into one model with 77.5% accuracy on 10,000 test clicks.

HomeCareConnect
Backend Developer | Python, Node.js, React, Firebase

- Built the backend of a home service booking platform that connects users with service professionals.
- Developed APIs for user authentication, booking and service listings using Node.js and Firebase.
- Designed the database structure and booking flow and worked with the React frontend team to integrate it.

HR Policy Assistant
Software Developer | Python, GenAI API, ChromaDB, Sentence Transformers, Streamlit, RAG

- Built a RAG-based assistant that answers employee questions about workplace policies in plain language, with answers cited by page number.
- Embedded policy documents with Sentence Transformers and stored them in ChromaDB for retrieval, then used the GenAI API to generate the answers.
- Created a Streamlit interface for employees to ask questions.

group.ai
Software Developer | IBM Watson Assistant, IBM Cloud, Watson NLP, React

- Built an AI chatbot, Carrie that gives personalized recommendations using IBM Watson NLP services, deployed on IBM Cloud.
- Ranked in the Top 12 of 650+ projects in the AI/ML Internship Program 2024 (CSRBOX × IBM) for AI chatbot innovation.

COURSES & CERTIFICATIONS

- Obtained certification in Getting Started with Artificial Intelligence, provided by IBM SkillsBuild.
- Completed coursework in Artificial Intelligence Fundamentals, certified by IBM SkillsBuild.
- Obtained certification in Project Management Fundamentals, provided by IBM SkillsBuild.

ACHIEVEMENTS & ACTIVITIES

- Secured a Top 12 Position for AI Chatbot Innovation in the AI/ML Internship Program 2024, organised by CSRBOX and IBM among 650+ projects.
- Attended Illuminate, a workshop on Business Development, organized by BDC MEC in collaboration with E-cell IIT Bombay.
- Attended Technopreneur 2023, an entrepreneurial summit organized by IEDC MEC.
